Taman Damai Mewah,
43000 Kajang,
Selangor.

Dear Mr. Louie Liu,

LETTER OF APPRECIATION - BETTER HEALTH, BETTER LIVES

On behalf of the Lions Club of Selangor Serdang, we extend our sincere appreciation for your leadership, generosity and continued commitment through the Better Health, Better Lives (BHBL) initiative.

It has been our privilege to work alongside you since the inaugural BHBL community outreach at Kg Genting, Chenderiang, Perak in July 2025. What began with a shared commitment to bring healthcare and essential support directly to an Orang Asli village became the foundation of a meaningful partnership in community service.

Over the following year, we were encouraged to see BHBL broaden its reach through collaborations in health, research and education, while remaining connected to the purpose that first brought us together.

In July 2026, that commitment came full circle with another community outreach at Carey Island, Selangor. Together with healthcare professionals, Lions members, volunteers and community partners, BHBL once again brought health and community support directly to an Orang Asli community.

Across these two outreach programmes, approximately 900 community members were reached, including close to 300 children. More important than the scale, however, is the continuity behind it - a willingness to return, build upon what was started and continue serving where it matters.

This sustained commitment strongly reflects the Lions spirit of "We Serve." It demonstrates how a shared purpose, supported by genuine partnership and consistent action, can develop into something with lasting value.

The Lions Club of Selangor Serdang is proud to have shared this journey from its beginning. We sincerely value the partnership established through these initiatives and look forward to continuing our shared commitment to serve more communities in the years ahead.

Together, We Serve for Better Health, Better Lives.

Yours sincerely,

KOH BOON HOW
President

Lions Club of Selangor Serdang 2026–2027
